

Open GODcha to Book of James

TIP: Work in Split View

James/Blog

GODcha

Readers/Phones: Investigate if your device is capable of multitask functions such as split screen.

This will enable you to open a **Book Discovery** in the **Blog** and the **GODcha App** **simultaneously** side by side.

Computers: Open the **Blog Discovery** in 1 browser (e.g. Safari) and the **GODcha App** in another browser (e.g. Chrome).

Adjust each window size so you can view side by side on your screen.

If your device doesn't multitask, then **Toggle** (go back and forth) between the Blog and the App.
